

# BARRIER ONE

POROSITY INHIBITING ADMIXTURE

*"An Affiliate of Concrete Moisture Solutions, Inc."*

CONCRETE MOISTURE  
SOLUTIONS, INC.

A CONCRETE ENHANCEMENT TECHNOLOGY COMPANY

- Revolutionary Concrete Enhancement Technology (CET)
- Porosity Inhibiting Admixture (PIA)
- Water to cementitious material ranges 0.31 to 0.52
- Quantitative tracer technology
- Certified Shrink Reducing Admixture
- Certified Corrosion Inhibitor
- Certified ASR Inhibiting Admixture
- Validated unmatched Life of the Concrete Warranty
- Adhesion Guarantee
- Independent lab-tested, project specific, quality control process
- No flawed field moisture testing
- Only sodium silicate free admixture
- No VOCs (Volatile Organic Compounds)
- Completely compatible with normal and lightweight mix designs
- Compatible with all floor coverings, non-porous substrate adhesives, resinous coatings and roofing membranes
- Install floor coverings and roofing membranes in as little as 7 days
- Requires only 1-3 days of curing
- No project delays due to moisture vapor emission
- No forced use of expensive topical moisture mitigation systems
- 1/10th the cost of topical moisture mitigation systems
- Easily dosed, delivered, and finished
- Winner of the Nova Award for Construction Innovation and Cost Savings
- Contributes as a system toward LEED points
